

SUPERTEAM GERMANY × WHU · BUILD AN MVP WITH SOLANA

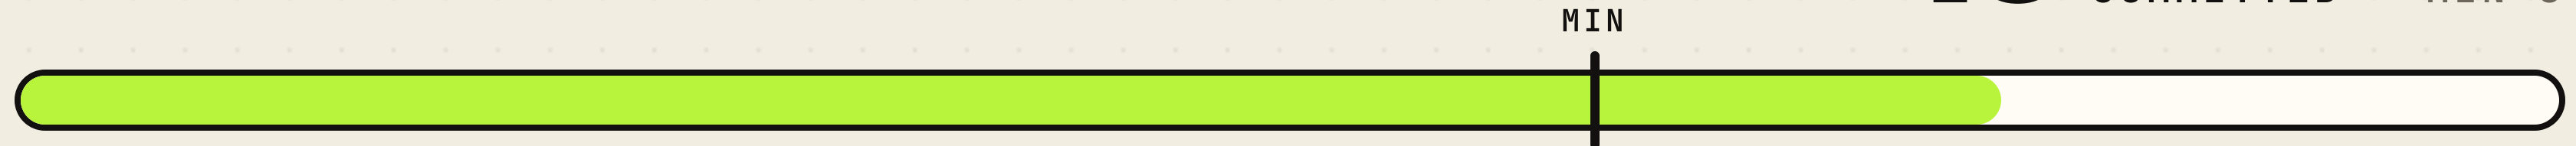

HEADCOUNT

The event happens when the headcount does.

Everyone commits money by a deadline. Enough people: it's GO.
Too few: everyone gets their money back, enforced on Solana.

IT'S GO.

10 COMMITTED · MIN 8

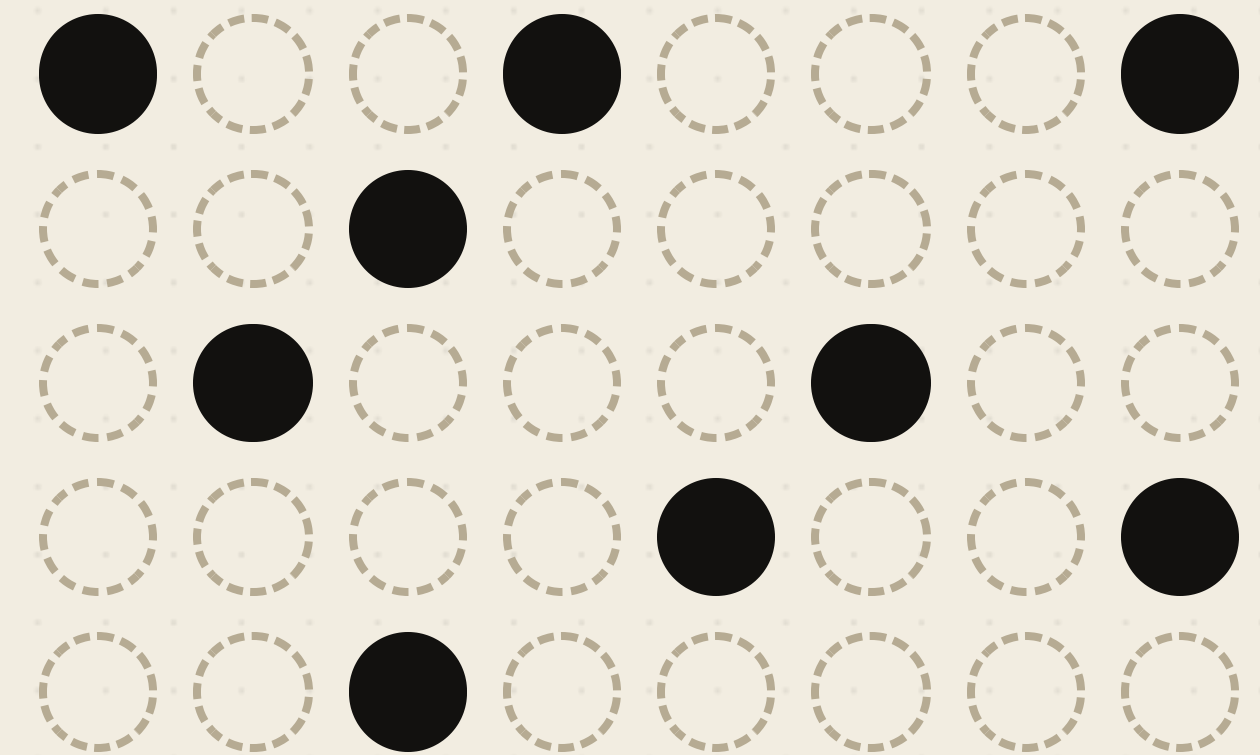

LIVE ON DEVNET: [HEADCOUNT.SOREVO.DE](https://headcount.sorevo.de)

NIKLAS WICHTER
SOLO BUILDER

40 INTERESTED. 9 SHOW UP.

The organizer books the room, orders the pizza and **eats the gap**. A free RSVP costs nothing, so it says nothing.

● SHOWED UP ○ CLICKED "INTERESTED"

ILLUSTRATIVE NUMBERS FOR A FREE MEETUP

Kickstarter made all-or-nothing work for products.

Nobody built it for **everyday events**:

THE TUESDAY MEETUP

THE TEAM OFFSITE

THE BUS TO THE CONFERENCE

**MONEY IS THE ONLY RSVP
THAT **MEANS SOMETHING.****

And only if it comes back **without asking anyone.** Otherwise nobody commits.

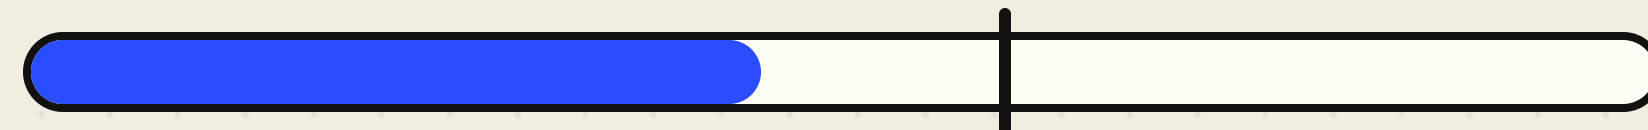

HOW IT WORKS

COMMIT BY THE DEADLINE. EVERY BAR YOU SET MUST CLEAR.

Two modes: **Ticket** (pay to attend) • **Deposit** (free event, deposit back at the door).

PEOPLE • 6 COMMITTED • MIN 8

MIN

MONEY • 100 OF 150 USDC OPTIONAL BUDGET

BUDGET

DECIDED AT THE DEADLINE

NOT THERE YET BACKER PLEDGES

EVERY BAR CLEARED

IT'S GO.

The event happens. The organizer is paid after the deadline.

ANY BAR MISSED

NO-GO.

Everyone, backers included, gets their money back. Anyone can trigger it; no organizer needed.

DEPOSIT MODE, FOR FREE EVENTS

NO-SHOWS PAY FOR THE PIZZA.

1

Lock a 5 USDC deposit

It waits in a program vault. The app pays the fees, so no SOL is needed.

2

Scan the door screen

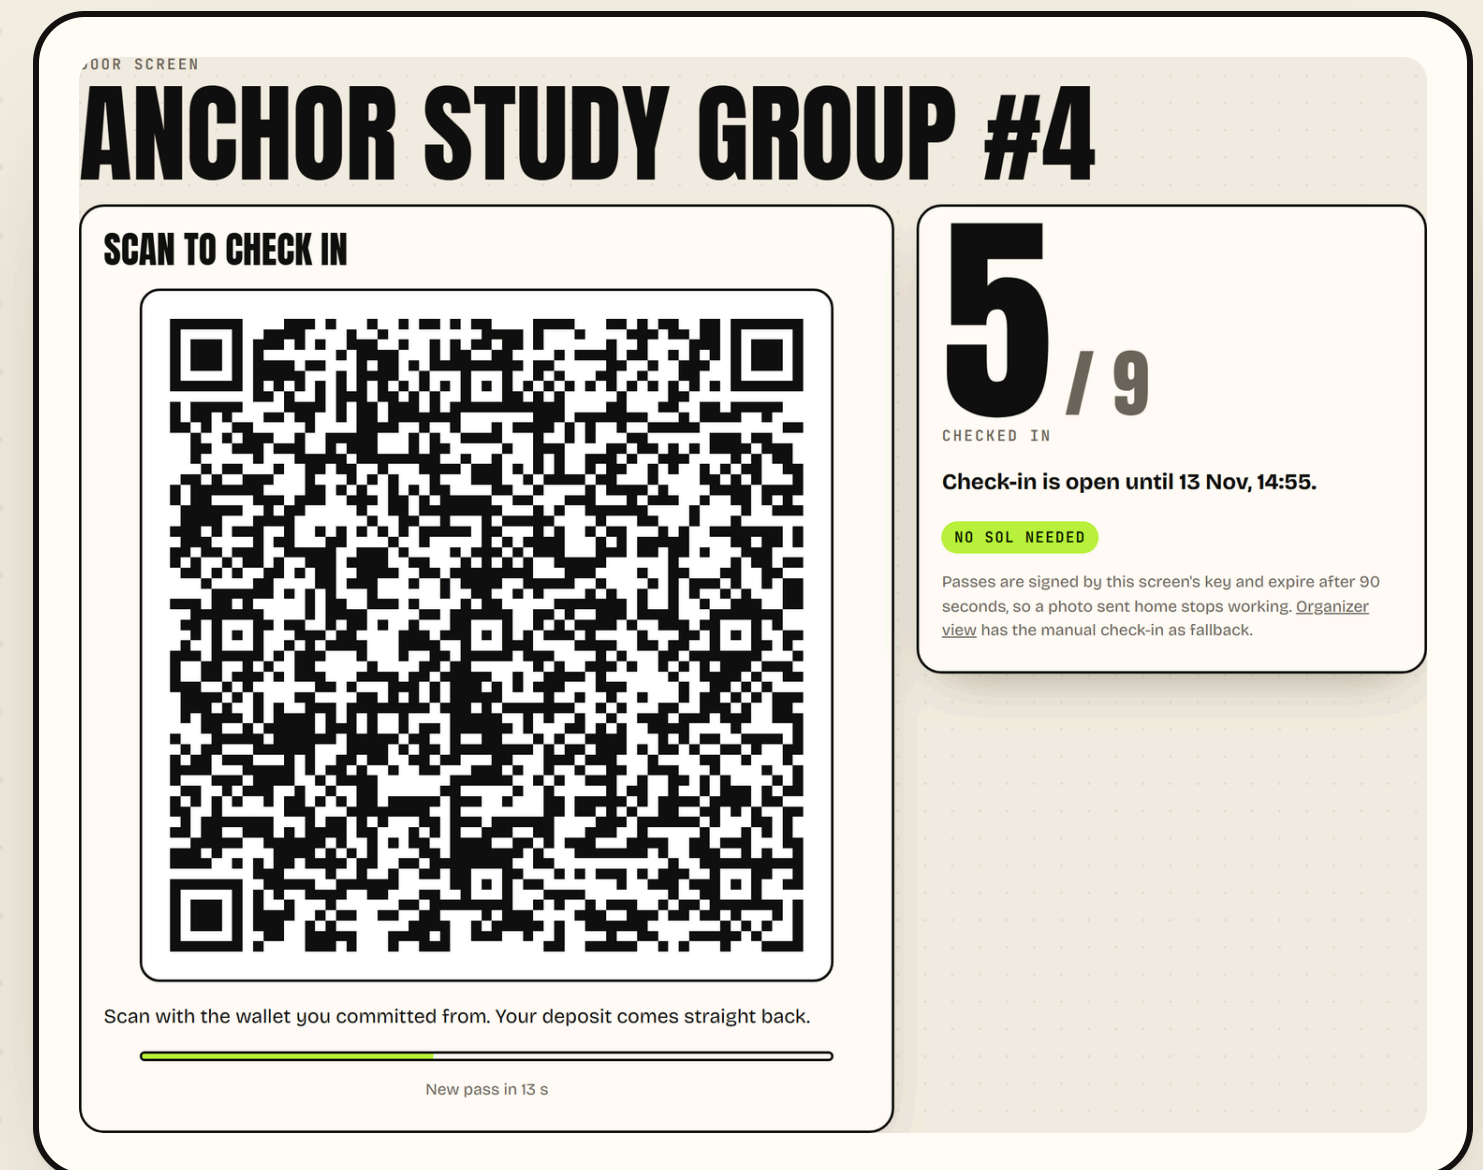

Its QR pass is signed and valid for 90 s. The chain checks it and returns the deposit in the check-in transaction.

3

No-shows pay

After the event, 3 empty chairs = 15 USDC for the organizer. That's the pizza.

THE DOOR SCREEN, LIVE ON DEVNET

TICKET EVENTS: BUDGET GOAL AND BACKERS

BACKERS CAN PAY FOR THE PIZZA, BUT THEY CAN'T FAKE THE HEADCOUNT.

Room and food cost **150 USDC**. Tickets are **10 USDC**, minimum **8 people**. A company backs it with **40 USDC**, no seat.

PEOPLE • 8 OF 8

CLEARED

MONEY • 80 TICKETS + 40 BACKER = 120 OF 150 USDC

30 USDC to go 3 more tickets or another backer.

BACK THIS EVENT (NO SEAT)

Help close the budget gap without taking a seat. Your pledge counts toward the 150 USDC budget, never toward the headcount. If the event does not happen, you take it back yourself.

Backers can pay for the pizza, but they can't fake the headcount.

10

Pledge

1 backer so far, 40 USDC pledged.

BACKING AN EVENT IN THE APP

LIVE ON SOLANA DEVNET • ATTENDEES NEED NO SOL

TRY IT IN 3 MINUTES.

1

Open Hackathon Pizza Night

At headcount.sorevo.de. Phantom: Settings → Developer Settings → Testnet Mode (Solflare and Backpack have the same switch).

2

Get test USDC

Paste your address on the page and tap Get test USDC.

3

Commit 10 USDC

Scan the QR or click Commit with browser wallet. The app pays the fee; the bar moves.

WHY SOLANA

STRANGERS TRUST THE RULES, NOT THE ORGANIZER.

The program pays out only after the deadline, refunds **everyone without the organizer**, and allows cancelling only before the deadline.

01**A PROGRAM VAULT ONLY
THE RULES CAN OPEN**

The organizer can't touch the money.

02**SPONSORED BY DEFAULT**

A transaction names its own fee payer, so attendees never hold SOL.

03**SCAN-TO-PAY STANDARD**

Solana Pay QR works in the wallets people already have.

04**CHECK IN AND REFUND AT
ONCE**

Ed25519 verifies the door pass in the same transaction that returns the deposit.

ALTERNATIVES · TYPICAL SETUPS

WHY NOT LUMA, STRIPE OR KICKSTARTER?

	Luma, Eventbrite PAID TICKETS	Stripe CARD HOLD	Kickstarter, Indiegogo ALL-OR-NOTHING	Headcount
Trust without a platform	NO platform and organizer	NO merchant account	NO platform charges on success	YES public rules, program vault
Refund if the organizer vanishes	DEPENDS platform support	PARTLY hold lapses after days	PARTLY only if the goal is missed	YES everyone refunds themselves
Minimum headcount, backers, check-in	PARTLY check-in only	NO build it yourself	PARTLY money goal only	YES all three

Kickback (Ethereum, 2018) proved stake-to-RSVP; Headcount adds a minimum headcount, backers, self check-in and phones without gas. Other terms simplified; they vary by provider and country.

WHO IT'S FOR, WHO PAYS

START WHERE THE PAIN IS WEEKLY: CRYPTO MEETUPS.

WHO PAYS: FEES ENFORCED ON-CHAIN

2 %

TICKET EVENTS

of the payout, only when it's GO

5 %

DEPOSIT EVENTS

of forfeited no-show deposits; refunds and returned deposits are always free

B2B

BACKERS

companies back events and pay only if people come

GO-TO-MARKET

FIRST

Superteam chapters and Solana meetups: wallets installed, sponsors already pay for food

THEN

University clubs, starting at WHU

THEN

A headcount widget inside Luma and Meetup pages

FOR BACKERS

Check-ins are on-chain, so every event ends with a verified attendance count: **the sponsor report they never had.**

BUILT AT THE HACKATHON

BUILT ON SOLANA, LIVE ON DEVNET.

14

on-chain actions

commit, pledge, refund, door-pass check-in,
payout with fee, cancel, close ...

1

transaction at the door

Ed25519 checks the pass, the deposit comes
back in the same step

0 SOL

needed by attendees

the app pays fees and rent, and gets the rent
back

TESTS 75 program checks · 124 end-to-end app checks · CI on every push

ROADMAP

WHAT COMES NEXT.

NOW: LIVE ON DEVNET

NEXT • OCTOBER

FROZEN RULES

Freeze program upgrades so nobody can change the rules, not even us.

NEXT • NOVEMBER

MAINNET PILOT

Same program, real USDC: one crypto meetup, one WHU club event.

THEN • Q1 2027

NO-SHOW REPUTATION

Repeat no-shows get asked for a higher deposit.

LATER • Q2 2027

LUMA WIDGET

The headcount bar inside the pages where events already live.

LATER • H2 2027

BLINKS

Commit to an event straight from a post on X (Solana Actions).

COMMIT. OR IT DOESN'T HAPPEN.

Looking for **organizers and communities**
who want to try it.
